GREEN SCHOOL RANKINGS

R. INDIA SCHOOL RANKINGS 2026

The R. Green School Rankings celebrate schools that are leading India's K-12 sustainability movement through responsible campus practices, environmental awareness, and measurable green initiatives. In an era where schools are expected to shape not only bright learners but also conscious citizens, this ranking framework recognises institutions that promote eco-friendly infrastructure, energy conservation, water and waste management, green learning spaces, climate awareness, and sustainable campus culture. By identifying schools that have embedded sustainability into everyday operations and student learning, the R. Green School Rankings aim to inspire a new generation of environmentally responsible institutions committed to building cleaner, greener, and more future-ready campuses.

Explore the Top 100 Green Schools in India.
