OBE RANKINGS 2023

The Outcome-Based Education (OBE) Ranking exclusively focuses on the student-centric teaching-learning methodology in which the course delivery, assessment is planned to achieve stated objectives and attributes. OBE focuses on measuring student performance i.e. outcomes at different levels. The OBE Ranking 2023-24 considers the 3 important parameters, viz., Inclusion and Diversity; Internship & Placements; and Entrepreneurship & Innovations.

DIVERSITY & INCLUSION

Diversity and inclusion at Educational Institution is an essential practice. Institutional workplace diversity is understanding, accepting, and valuing differences between faculty and staff, including those, of different races, ethnicities, genders, ages, religions, disabilities, and sexual orientations, and, with differences in education, personalities, skill sets, experiences, and knowledge bases. Inclusion in the Educational Institution is a collaborative, supportive, and respectful environment that increases the participation and contribution of all faculty/staff, for the growth of the Institute.

INTERNSHIP & PLACEMENTS

The Placement Cell or Career Development Centre is Central to a student's career. Particularly from 2018 and beyond, students are finding it critical to decide, Entrepreneurship vs Employment. The structure of the job market has recently changed significantly with technology integrated into almost everything in our daily lives. New Age Universities or the educational institutions have been seemed to focus on Internships and assist in providing a nice learning curve for students helping them gain first-hand exposure of working in the real world.

ENTREPRENEURSHIP & INNOVATIONS

Academics and new ventures, the two do not have to be mutually exclusive. Balancing studies and the entrepreneurial dream are often troublesome for students who are already on their business journeys. College must help define and influence student's career goals rather than hinder them. College-aged entrepreneurs enjoy unprecedented benefits and support, making it the perfect time to test the waters of business ownership. Education Institutions have set up exclusive teams to help students nurture entrepreneurial skills, as college is the best time to become an entrepreneur.
